Education

University of Texas at Austin, M.S. Computer Science, Specializing in AI, GPA: 3.55 / 4.0 — Aug 2024 – Dec 2027
University of Texas Rio Grande Valley, B.S. Computer Science, GPA: 3.58 / 4.0 — May 2024
Relevant Coursework: Generative AI, Machine Learning, Deep Learning, Advances in Deep Learning, Data Structures & Algorithms

Technical Skills

Languages: Python, SQL, C++, TypeScript/JavaScript, HTML/CSS
AI/ML & Data: PyTorch, NumPy, Pandas, pgvector, CNNs, Transformers, LangGraph, RAG, Embeddings, Vector Search
Frameworks & Backend: Next.js, React, tRPC, PostgreSQL, Redis, Firebase
Developer Tools & Cloud: Docker, Git/GitHub, Vercel, Jupyter Notebook, Google Colab

Work Experience

Software Engineer | **City Connect** — Jan 2026 – Sept 2026
Allied Consulting Group — *Pharr, TX*

- Engineered City Connect, a multi-tenant civic AI platform for the City of Pharr, supporting bilingual resident assistance and scalable municipal deployments.
- Integrated LangGraph-based workflows to deliver bilingual, source-grounded AI responses for municipal information requests.
- Built a multi-tenant admin dashboard with five-tier RBAC, PostgreSQL-backed memberships, invitation onboarding, and Redis-cached authorization.

Technology Operations / IT Intern — Mar 2022 – May 2023
IDEA Public Schools — *Weslaco, TX*

- Supported headquarters technology operations by troubleshooting hardware, peripherals, mobile devices, and network connectivity issues, helping staff maintain productivity during daily operations.
- Worked with the Project Manager on a major mobility transition project, helping migrate 3,000+ staff to a new cellular service provider and supporting a cost-saving initiative projected to save the organization millions annually.

Projects

Autonomous Driving with Deep Learning | *Python, PyTorch, CNNs, Transformers* | GitHub

- Developed MLP, Transformer, and CNN-based autonomous driving planners to predict vehicle trajectories in SuperTuxKart.
- Implemented waypoint prediction from lane boundaries and RGB images using Transformer cross-attention and CNN-based feature extraction.
- Trained and evaluated three driving planners; CNN achieved 0.160 longitudinal and 0.273 lateral validation error.

AI Student Support Platform | *Next.js, TypeScript, LangGraph, tRPC, PostgreSQL, Redis* | GitHub

- Built an AI student support platform for UTRGV, integrating LLM-powered retrieval workflows with structured campus information.
- Engineered backend services using TypeScript, tRPC, PostgreSQL, and Redis to support persistent conversations, session memory, and AI-assisted responses.
- Developed an embeddable chat interface with tenant-aware architecture designed to support multiple university departments.

Healthcare AI RAG Tutor | *Python, Embeddings, Vector Search* | GitHub | Live Demo

- Built a RAG-based healthcare tutor using embeddings and vector search to generate grounded answers from medical textbooks (1st Place, Hack Research; 300+ participants).

Leadership & Teaching

AI Engineering Teaching Assistant / Tech Fellow — May 2026 – Present
CodePath — *Remote*

- Support 200+ students across CodePath AI 110 (AI Engineering) and AI 301 (Open-Source AI Capstone), mentoring students in Python, open-source contribution best practices, GitHub workflows, and Claude Code skills and hooks.

Software Engineering Mentor — Oct 2024 – Dec 2024
University of Texas Rio Grande Valley — *Edinburg, TX*

- Mentored a local university student in React/Next.js development, software engineering workflows, project organization, and code-quality best practices, contributing to his successful transition into a Software Development Engineer role at IBM.

2x CS II Academic Tutor | Undergraduate Teaching — Aug 2023 – Dec 2023
University of Texas Rio Grande Valley — *Edinburg, TX*

- Led intermediate C++ CS II PLTL sessions on algorithms, data structures, debugging, and problem-solving patterns, helping improve overall course performance by 20% compared to previous semesters.

Awards & Hackathons

CodePath Tech Fellow, Certificate of Leadership in AI Engineering, 2026 [Certificate]
$1K Grand Prize, We R Cooked AI Voice Call Simulation (1K+ participants, 2024) [Post]
1st Place Sustainability, Bin Fiesta Recycling AI Assistant (300+ participants, 2024) [Post]
1st Place AI Healthcare, GPT-4/RAG tutor (300+ participants, 2023) [PDF] [Post 1] [Post 2]
